Dear Sir/Madam

**Proposed Carriageway Improvements – B1230 Main Road, Newport**

As part of the Council's £12m capital programme of carriageway maintenance works, East Riding of Yorkshire Council intend to commence major carriageway improvements works along the B1230 next month.

Carriageway resurfacing works will commence on Main Road (between the junction with Peturia Way and Wallingfen Lane junction) on Monday 11 July lasting for 8 night shifts between the working hours of 19.00 and 6.00hr to minimise disruption to the adjacent businesses. Work will then progress westbound through Newport on daytimes between the working hours of 8.00 and 17.00hr from Monday 25 July under temporary traffic lights (phased as shown on the attached plan) finishing at St Stephens Church by the 16 of September (weather permitting).

Access will be maintained to properties along the B1230 and roads off the B1230. However, when working in close proximity to property accesses there will be a period of time when access into your property by vehicle will be restricted. Properties directly affected by the works will receive regular correspondence and the site team will try to keep any disruption to a minimal.

On street parking in the working area will also be restricted for the protection of the parked vehicles. This will be regulated with "No Parking" cones placed out the previous evening for the next day's work. East Riding of Yorkshire Council would like to sincerely apologise in advance for any inconvenience these essential works may cause.

If you require any further information regarding the scheme, please contact Chris Bown on the above number or email.

Yours faithfully,

Chris Bown

Project Engineer
